Debugging

Web Services

System Scalability

## Profile Summary

- Highly motivated and enthusiastic fresher in **Computer Science and Engineering**, with a strong foundation in programming languages, data structures, and algorithms.
- Possesses excellent **problem-solving skills, teamwork spirit**, and a passion for learning and growth.
- Proficient in languages such as Java, Python and Web development.
- Eager to apply **theoretical knowledge** in practical settings and explore cutting-edge technologies.
- Looking for opportunities to contribute to **innovative projects** and kickstart a rewarding career in the tech industry.

## Academic Projects

### Personal Portfolio

#### Tools: HTML, CSS, Bootstrap

Designed and developed a professional personal portfolio website showcasing my skills, projects, and achievements. Utilized HTML, CSS, and Bootstrap to create a responsive, modern, and user-friendly interface.

#### Responsibilities:

- Designed and developed a personal portfolio website using HTML, CSS, and Bootstrap.
- Implemented UI/UX design principles for an engaging user experience.
- Developed content showcasing projects and skills.
- Tested and debugged the website for cross-browser compatibility.
- Created a responsive and mobile-friendly layout.

### Library Management System

#### Tools: Java, Swing(GUI), MySQL, JDBC Connectivity

A library management system where admin can add/view/delete librarian and librarian can add/view books, issue, view issued books and return books

#### Responsibilities:

- Designed and developed the Library Management System using Java and Swing.
- Implemented database connectivity using JDBC and MySQL.
- Created user interface components, including forms, tables, and menus.
- Developed business logic for user and book management, borrowing, and reporting.

### Quiz Application

#### Tools: HTML, CSS, ReactJS

User-friendly interface for quiz-taking. Multiple question types (e.g., multiple choice true/false). Real-time scoring and feedback.

#### Responsibilities:

- Designed and developed the Quiz App using ReactJS.
- Created a user-friendly interface with HTML and CSS.
- Implemented quiz logic and scoring system.

### Weather Application

#### Tools: HTML, CSS, JavaScript

- Developed a responsive Weather Application using HTML, CSS, and JavaScript, leveraging the OpenWeatherMap API to fetch real-time weather data.
- The application allows users to search for weather conditions by city, displaying current weather, forecast, and additional weather details.

#### Key Features:

- Designed and developed the Weather application using HTML, CSS, JavaScript.
- Implemented JavaScript to handle user input, API requests, and data rendering.
- Integrated OpenWeatherMap API to retrieve weather data.

## Certificates and Achievements

- AWS Academy Graduate (**AWS Academy**)
- Life Skills by **Rubicon**
- JavaScript by **Scalar**
- Java Programming Bootcamp by **LetsUpgrade**

## Personal Details

**Hobbies:** listening to music, cricket, volleyball, Badminton.

**Languages Known:** English, Hindi

**Address:** 210A LG Floor Savitri Nagar,  
New Delhi-110017
